RM 121 8701 1053-1054
Pavement Resurfacing

Dear Supervisor, Goncalves:

This is to inform the Town of Lewisboro that the New York State Department of Transportation plans to resurface portions of Routes 35 and Route 121. The Route 35 portion of project will begin at the pavement joint east of Route 22. The project continues to the west side of the bridge over the Waccabuc River. The Route 121 portion of the project will begin at the intersection of Route 35. It will end south of the John Jay Middle School.

The project will begin in the Spring Construction Season of 2024. The project is limited in scope and will involve milling of the existing roadway surface, resurfacing with a single course asphalt overlay. The project will also include shoulder repairs, restoration of the pavement markings, and some drainage repairs. **This will be constructed during the night time hours.**

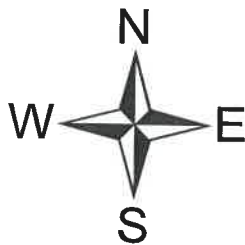

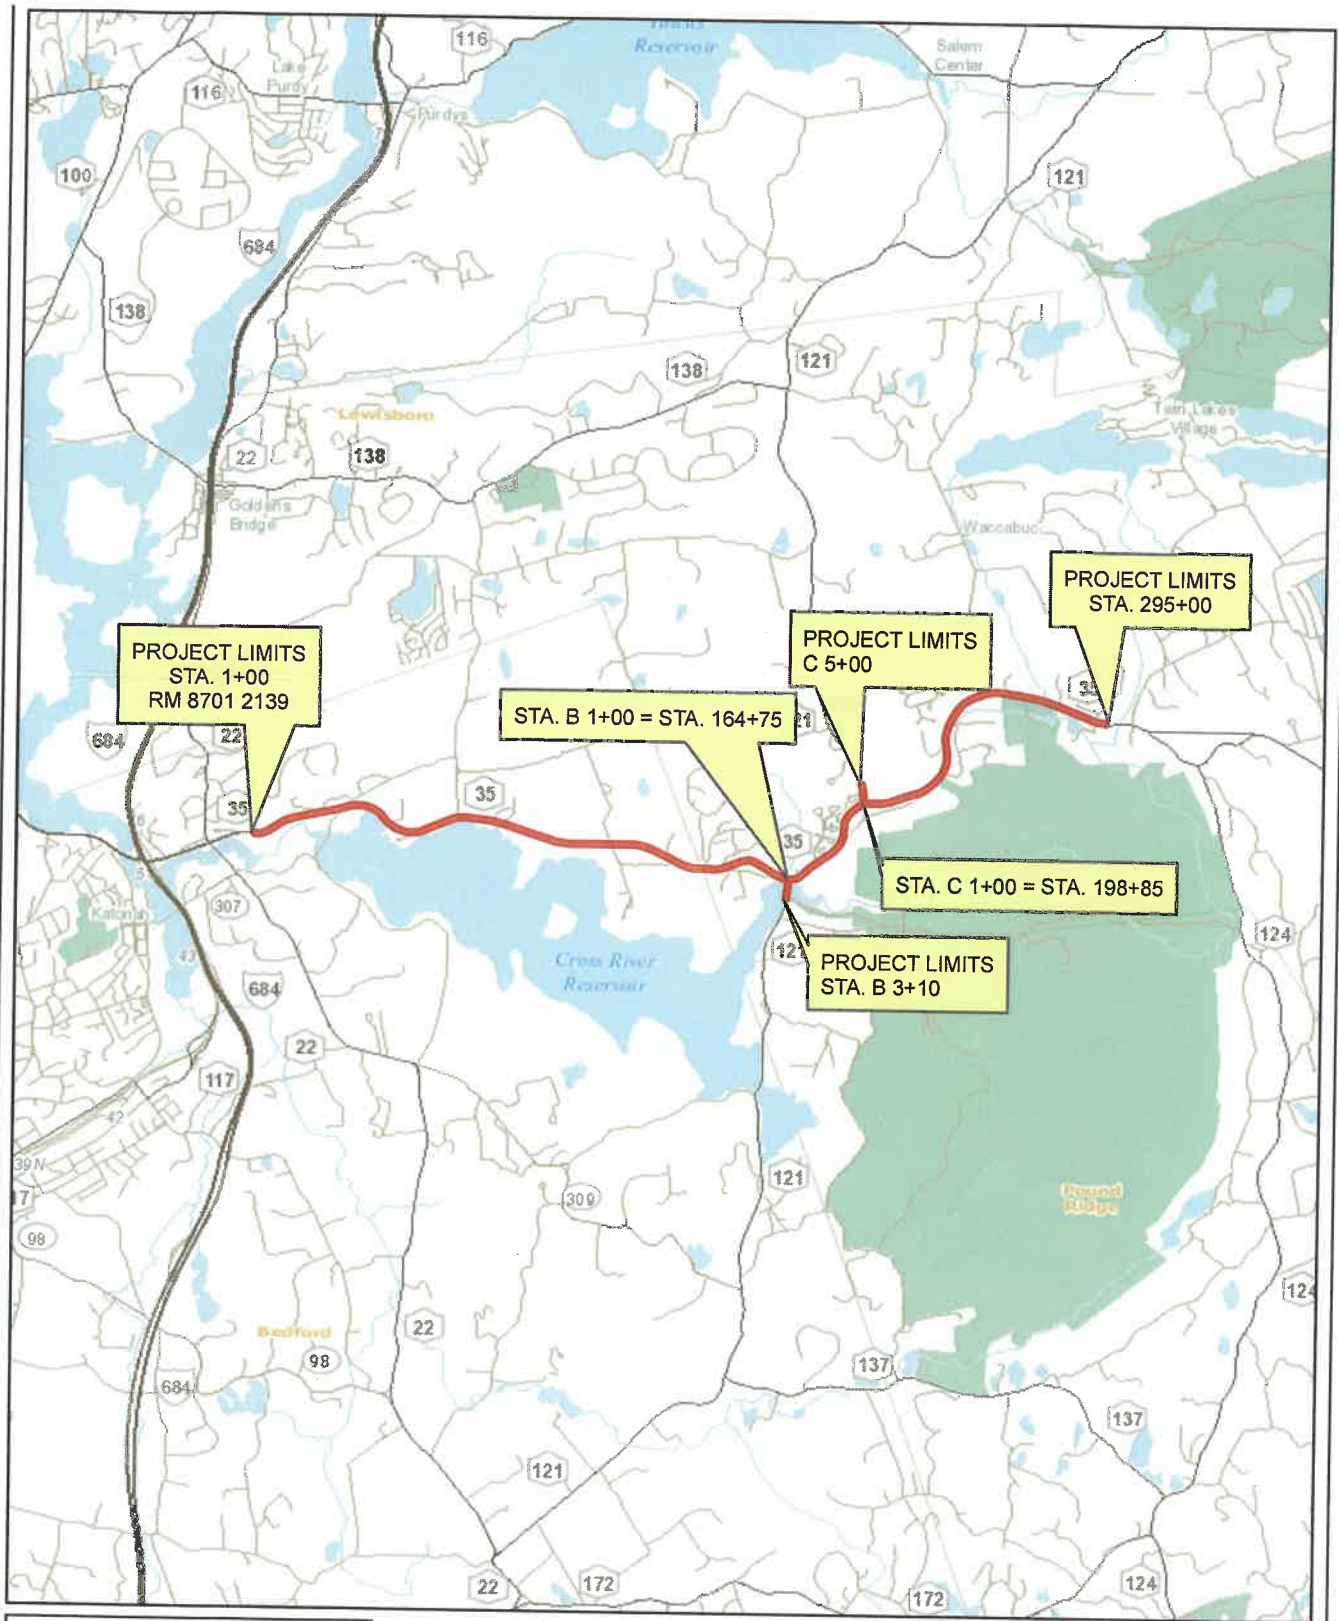

If you have any concerns about this work, please feel free to contact me at (845) 437-3346.

Very Truly Yours,
