

Lewisboro Management

New York State Stormwater Permit regulations require towns like Lewisboro to implement programs and practices to control polluted stormwater runoff. The Town must take actions in to support six minimum measures:

- Public education and outreach on stormwater
- Public involvement and participation
- Illicit discharge detection and elimination
- Construction site stormwater runoff control
- Post construction stormwater management in new development and redevelopment
- Pollution prevention and good housekeeping for town operations

In December, 2007, Lewisboro passed two stormwater ordinances. Chapter 188, Storm Sewer System, addresses the detection and elimination of the illicit discharge of stormwater. Chapter 189 addresses stormwater management and sediment and erosion control. These ordinances are at the Town Code link <https://ecode360.com>

The Town Highway Superintendent is designated by the Town Board to enforce the Illicit Discharge Detection and Elimination code. You can find out more about illicit discharges by clicking on the tab on the left side of this page.

If you are concerned about a discharge to our waterways, or if you believe septic effluent or soap suds or any other illicit discharge is being directed into a storm drain or into any town lake, stream, or wetland, report this illicit discharge to the Highway Superintendent, John Winter, at 914 763-3166 or [highway \[at\] lewisborony.gov](mailto:highway@lewisborony.gov).

The Town of Lewisboro (TOL), as the MS4 operator, has designated Kevin Kelly, the Town Building Inspector, as the **Stormwater Program Coordinator**. Kevin Kelly is knowledgeable in the principles and practices of stormwater management, the requirements of this GP 0-24-0-001, and of the Stormwater Management Plan (SWMP). As Stormwater Program Coordinator, Kevin Kelly oversees the development, implementation and enforcement of the SWMP, coordinates all elements of the SWMP to ensure compliance, and ensures that the annual report is submitted. Contact information for the Stormwater Program Coordinator is Kevin Kelly, Town of Lewisboro Building Inspector, [building \[at\] lewisborony.gov](mailto:building@lewisborony.gov) or 914 763-3060.

Stormwater Management Officer (SMO): As defined by town code, the SMO is an employee or officer designated by the Town Board to administer and enforce the stormwater code, and, in certain situations, review and approve Town stormwater permits and SWPPPs, forward applications and SWPPPs to the Planning Board, and inspect land development activities and

stormwater management practices. The SMO may rely on the Town Engineer for the review of SWPPPs and to conduct inspections on his/her behalf. The SMO is the Building Inspector, Kevin Kelly, at [kkelly \[at\] lewisborony.gov](mailto:kkelly@lewisborony.gov) or 914-763-3060.

You can see the stormwater actions taken by Lewisboro by reviewing the annual reports at the MS4 Annual Report tab in the column at the left of this page. The SWMP Plan outlines the actions and plans of the Town of Lewisboro to comply with the Stormwater Permit requirements and can be found at the SWMP Plan tab on the left side of this page.
