

LEWISBORO STORMWATER COMMITTEE

Meeting Minutes

Meeting Date: May 2, 2013
Members Present: Paul Lewis, Evelyn Kahlow, Joel Smith
Absent: Janet Andersen, Joe Cermele (Town Engineer), Peter Ripperger, Ron Tetelman, Sam Wear, Dan Welsh
Meeting Location: Town House
Call to Order: 4:00 pm

1. **Minutes:** The minutes from the April 4, meeting were approved.
2. **Public Education:** The Stormwater column that had been printed in the Spring/Summer issue of the Parks and Rec. Brochure was put on the Stormwater website and made available to Town residents on the Town email list.
3. **Annual Report:** The draft of the Annual report was approved with only a couple date corrections to be made. The report will be presented to the Town Board at their 5/20 meeting.
4. **Future Tasks :** We explored additional tasks that the committee should be doing. We discussed items such as how to make the GIS information on catch basins and outfalls more useful to the Highway Department and others. Linking tables that contain catch basin and outfall condition information to the GIS locational data could be helpful. It would be useful to be able to see on a map, the location of problem drainage elements such as catch basins with a different symbol. Create subcommittee?

Training employees on best stormwater practices, etc., could be another undertaking.

Is there any way to involve or educate students?

We should investigate what stormwater committees of other Towns are doing.
5. **Next meeting:** The next meeting is scheduled for Thursday, June 6, 2013, at 4 pm at the Town House.

The meeting adjourned at 5:00 pm.
